WELCOME ADDRESS | 欢迎致辞

On behalf of the Organizing Committee of the 6th International Conference on Educational Technology (ICET 2026), we are delighted to greet you and to thank you sincerely for being here in Wuhan. Meeting in this golden autumn season, we look forward to an occasion that will prove rewarding and stimulating for all engaged in educational technology.

ICET 2026 takes as its theme "The Digital and Intelligent Transformation of Education: Reimagining Human-Centric and Inclusive Learning Ecosystems." Our discussions will center on how the potential of data intelligence might be realized in this regard. We intend to press beyond abstract argument toward concrete application, exploring how such tools can be deployed so that learning efficiency and educational quality are improved for every learner. First held in 2021, ICET has come to occupy an important place among the forums where scholars and practitioners compare findings, present new developments, and establish cooperative ties. We are all the more glad to receive participants face to face this year, and we trust that this edition will prove the most absorbing and provocative to date.

The conference is organized by South-Central Minzu University, China, and patrons are Wuhan University of Technology, Wuhan Sports University, and Huanggang Normal University. It is a further privilege to list among our media partners China Educational Technology, Modern Education Technology, Open Education Research, Journal of Distance Education, Modern Distance Education Research, Journal of South-Central Minzu University, Frontiers of Educational Intelligence, Journal of Tianjin Academy of Educational Sciences, Zhongxiaoxue Xinxijishu Jiaoyu, Frontiers of Digital Education, Huazhong University of Science and Technology Press, Journal of Interactive and Intelligent Learning, Hubei Society of Artificial Intelligence for Research and Education, Hubei Research Center for Minzu Education and Chutian Teaching Studio of Hubei Province. Their cooperation and encouragement have furnished a dependable basis for the conference.

Across the sessions that follow, a number of pressing questions will be taken up, among them Inclusive Learning Environments, Artificial Intelligence in Education, Emerging Technologies in Learning, Technology-Enabled Cultural Inheritance, Technology-Enabled Artistic Creation, and Technology-Enabled Innovative Talent Cultivation. Eminent scholars from many parts of the world will present their latest findings and practical experience, giving rise to a vigorous scholarly climate. The program further comprises a wide range of activities, including Keynote Speeches, Invited Speeches, Meet the Editors, Tracks, Special Sessions, Parallel Sessions, and a Campus tour. We hope you will enter fully into these sessions, exchange views with those around you, and help shape the future of educational technology through careful discussion and joint effort.

We thank you once more for attending and for your support. The days ahead, we trust, will allow us to add a further chapter to the record of educational technology.

We wish you good health and a rewarding experience at ICET 2026!

INTRODUCTION | 学校简介

South-Central Minzu University, China | 中南民族大学

About SCMU: South-Central Minzu University (SCMU) is directly administered by the National Ethnic Affairs Commission and jointly supported by it together with the Ministry of Education, the Chinese Academy of Sciences, Hubei Province, and Wuhan Municipality. It is a "Double First-Class" construction university of Hubei Province and excels in ethnic education and research, striving to become a

high-level modern comprehensive university that drives regional socioeconomic development. Located on the shores of South Lake, Wuhan, the university covers over 1,500 mu (≈ 100 hectares) with a floor area of more than 1.16 million m^2 . It enrolls over 30,000 full-time students through a multi-tiered system spanning doctoral, master's, undergraduate, and preparatory programs. Its faculty includes Changjiang Scholars, recipients of the National Science Fund for Distinguished and Excellent Young Scholars, National Model Teachers, National Models of Teacher Ethics, and members of national "Huang Danian-style" teaching teams. Committed to openness, it participates in alliances such as the China - Pakistan Economic Corridor University Alliance and the China - Japan University Alliance for People-to-People and Cultural Exchange, runs joint training with more than ten leading domestic universities, and maintains talent cultivation partnerships with over 300 local governments and organizations and academic ties with over 70 overseas universities.

In recent years, the university has undertaken major and key national research projects and won national and provincial/ministerial research awards. It contributed to pioneering technologies for solid waste recycling and pollution prevention, and was awarded the second prize of the State Technological Invention Award. It operates multiple national-level platforms in ethnic studies, faculty development, experimental teaching, technology incubation, and innovation and entrepreneurship education. Its journal (Humanities and Social Sciences Edition) is included among China's core journals and CSSCI sources, and its Natural Sciences Edition is a Chinese core academic journal. In 2012 it was designated a National Demonstration Center for Faculty Teaching Development, and received excellent ratings in the Ministry of Education undergraduate teaching evaluations in 2001, 2006, 2016, and 2024. Upholding its motto "笃信好学、自然宽和" (Devotion to Learning, Naturalness and Harmony) and its spirit "昂扬奋进、止于至善" (Forging Ahead with Vigor, Striving for Perfection), the university cultivates high-caliber talents with professional competence, an international perspective, and social responsibility, contributing to the common development of all ethnic groups and to the exchange of civilizations.

Travel Tips for Wuhan | 武汉旅行提示

During your stay in Wuhan, please be prepared for relatively cool and variable autumn weather. From **October 23 to 26**, expect mostly cloudy skies with occasional light rain and temperatures ranging between approximately **13°C and 22°C**. We recommend packing **long-sleeved shirts and light jackets** for cooler mornings and evenings. A **compact umbrella** is advisable, especially due to possible light rain on October 24. Comfortable walking shoes are also recommended for sightseeing and commuting. For indoor conference venues, carrying a **light layer** is practical as temperatures may vary with air conditioning. Stay updated on the latest weather forecasts as conditions may change.

CHINESE SHADOW PUPPETRY EXHIBITION

中华传统皮影展

The Exhibition on Inheritance and Innovation of Traditional Chinese Shadow Puppetry Culture (Shadow Puppetry of Jiangnan Plain, Hubei Province) will be held at the **Optics Valley Art Museum of South-Central Minzu University** from **October 22 to October 26, 2026**. Popular in Xiantao, Tianmen, Qianjiang and other areas of Hubei Province, Jiangnan Plain shadow puppetry has a history of over 300 years. It was included in the first batch of national intangible cultural heritage in 2006, and in 2011, as part of Chinese shadow puppetry, it was inscribed on the Representative List of the Intangible Cultural Heritage of Humanity by UNESCO. Centering on the theme of “Vivid Shadows and Resonant Sounds”, the “Vivid Shadows” section focuses on the large “Door God Pattern” shadow puppets, which feature unique shapes, large sizes, and the characteristics of “resembling both deities and humans, with clear distinctions between good and evil, and a strong theatrical flair”; the “Resonant Sounds” section, based on the Xiantao fishing drum

tune, presents a rich local charm of the Jingchu region. Meanwhile, through forms such as virtual simulation workshops and innovative repertoires, the exhibition showcases the inheritance and innovation achievements of shadow puppetry art in universities.

中华传统皮影文化传承与创新展（湖北江汉平原皮影）将于 **2026年10月22日至10月26日** 在中南民族大学 **光谷美术馆** 举办。江汉平原皮影戏流传于湖北沔阳、天门、潜江等地，已有三百余年历史，2006年列入首批国家级非遗，2011年作为中国皮影戏组成部分入选联合国教科文组织人类非遗代表作名录。展览以“绘影绘声”为主线：“绘影”聚焦“门神谱”大皮影，造型别致、体量巨大，具“似神如人、善恶分明、戏味浓郁”特色；“绘声”以沔阳渔鼓腔为基础，展现浓郁荆楚乡土韵味。同时，通过虚拟仿真工作坊、创新剧目等形式，呈现皮影艺术在高校的传承与创新成果。
